DETAILED ACTION

Amendment

1. Acknowledgement is made of the Response filed August 23, 2004.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Fischer et al. (US 6,659,355; hereinafter "Fischer").

Re claims 1-2, 5-6: Fischer teaches a chip card module for insertion into a card body (1 in fig. 1), the chip card module comprising:

a chip card keypad (4 in fig. 1);

at least one additional component (electronic components); and

an intermediate carrier (8 in figs. 2-3 having strip conductors by metallic contact surfaces 7, which serves as conductor track structure (as set forth in claim 2), to connect the chip module 2, the display 3 and the keypad 4; see col. 2, lines 10-14) forming a functional component of the keypad and serving as a carrier for the additional component;

the keypad being accessible from outside of the module and from outside of the card body (see figs. 1-3; and col. 1, line 65 through col. 4, line 6).

Art Unit: 2876

Re claims 3 and 7: Fischer teaches a chip card module, wherein the keypad has a covering sheet (12, 14 in figs. 2-3) disposed at a surface of the card body and a switch sheet (7, 9 in fig. 2) contact-connected to the intermediate carrier (8 in figs. 2-3).

Re claims 4 and 8: Fischer teaches a chip card module, wherein the additional component is a chip module (2 in fig. 1).

Response to Arguments

4. Applicant's arguments filed August 23, 2004 have been fully considered but they are not persuasive.

5. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "It therefore must be noted that the electric components are not to be integrated individually into the chip card, but instead they are to be applied on a chip card module that represents a subassembly, which is then to be inserted as a whole into the card body...The chip card module thereby utilizes an intermediate carrier which is a functional component of the chip card keypad. The further additional components are also to be applied electrically on the intermediate carrier. The electrical connection of the components with each other is realized via the intermediate carrier." (see page 3, the top two paragraphs)) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

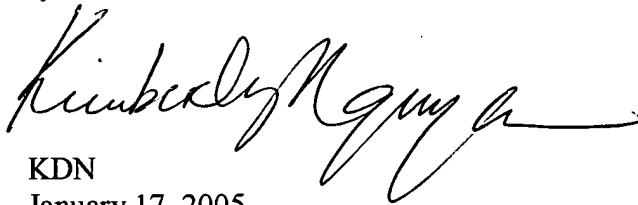

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
